PROFESSIONAL SUMMARY

AI-Native Product Designer, Product Builder & Founder with 3+ years of experience designing and shipping digital products across AI, SaaS, automotive, and consumer technology domains. Experienced in 0 to 1 product development, AI agents, voice experiences, conversational interfaces, design systems, and product strategy. Currently designing AI Twin Agent experiences at Double AI while collaborating directly with founders and engineering teams to define product direction, user experiences, and AI workflows. Previously designed production automotive HMI at Maruti Suzuki, including digital instrument clusters and infotainment systems shipped in commercial vehicles. Combining product thinking, systems thinking, user research, interaction design, and AI-assisted development workflows to rapidly prototype, validate, and ship products used by real customers.

EXPERIENCE

Product Designer

Cardtree AI(Double AI)

December 2025—Present, Bengaluru

- Led design of multiple 0 to 1 product experiences including AI Twin Agents, Voice Agents, AI Avatars, Agent Workflows, Knowledge Base, Analytics, Pricing & Billing, Onboarding, Referral Systems and Conversational Interfaces.
- Collaborate directly with founders and engineers to define product requirements, user flows, interaction models, and AI-native experiences.
- Designed analytics dashboards, usage management systems, onboarding journeys, and workflow automation experiences.
- Contributed to product strategy, feature prioritization, and rapid prototyping initiatives using AI-assisted workflows.

Product Designer, Founder

Quilo

June 2025—December 2025, Bengaluru

- Conceived, designed, developed, launched, and iterated a Chrome Extension and Web Application from scratch. Link - [Quilo](#)
- Built production-ready interfaces using Next.js, React, Tailwind CSS, Manifest V3, and Vercel.
- Conducted user research, product discovery, and usability validation throughout the product lifecycle.
- Grew the platform to 600+ users through continuous product experimentation and user feedback loops.
- Owned end-to-end product development including design, frontend implementation, deployment, analytics, and growth.

Product Designer

Maruti Suzuki

June 2023—June 2025, Gurugram

- Designed user experiences for SmartPlay Pro+ infotainment platform and U3K Digital Instrument Cluster.
- Created user flows, information architecture, interaction patterns, visual assets, and high-fidelity production interfaces.
- Conducted competitive benchmarking and market research across automotive platforms.
- Worked closely with engineering teams to build scalable design systems and reusable UI components.
- Contributed to production systems shipped in personal vehicles like Maruti Suzuki Victoris .

Creator & Founder

Formula 1 youtube Channel

June 2025—December 2025, Bengaluru

- Grew a Formula 1 content based youtube channel to 1 mn+ views and 900 subscribers using ai for video creation and image generation and image editing.

PROJECTS

AI RAG based chat made with blade design system - [Ai twin chat](#). Quilo chrome extension for prompt workflows - [Quilo](#).

EDUCATION

Master of Design, Product Design

Jamia Millia Islamia - New Delhi

Bachelor of Architecture

Guru Gobind singh indraprastha university- New Delhi

SKILLS

Product Strategy, Product Discovery, Product Thinking, Product Lifecycle, Product Analytics, User Journey Mapping, Customer Journey Mapping, Persona mapping, Information Architecture, Interaction Design, Microinteractions, Motion design, Visual Design, User Flows, Wireframing, High-Fidelity Design, Rapid Prototyping. AI Agents, Agentic Workflows, Conversational UX, Human-AI Interaction, Voice UX, AI-Native Products, Prompt Engineering, AI-Assisted Product Development, AI Workflow Design. Enterprise UX, Dashboard Design, Workflow Design, Data Visualization, Analytics Interfaces, Data-Dense Interfaces, Platform Design, B2B SaaS. User Research, User Interviews, Usability Testing, Behavioral Analysis, Customer Feedback Analysis, A/B Testing, Design Validation. Design Systems, Component Libraries, Design Tokens, Figma Variables, Auto Layout, Pattern Libraries. React, Next.js, Tailwind CSS, HTML5, CSS3, JavaScript, Chrome Extensions, API Integration, Design-to-Code Workflows. Claude Code, Cursor, Codex, Figma MCP, AI-Assisted Prototyping, AI-Assisted Development.
